

# COLOUR CONTROL TABLE

# COLOUR CONTROL TABLE

The professional colour control table allows visual viewing and/or comparison of the printed film or sheet. It has been specifically designed for the press room, the structure is made of steel painted in neutral grey colour, this allows the minimisation of shadows and reflections. All tables can be equipped with side walls (optional). Equipped with a ceiling light with 4-5 lamps depending on the size of the table, it guarantees a 5000°K ( Optional 6000 °K e 6500 °K ) for a correct spectral emission. All tables can be equipped with 5 reinforced drawers that allow the storage of printed sheet.

## Standard formats:

**T.C.C. 500x700 F.to cassettei 500 x 700 mm**

**T.C.C. 920x1170 F.to cassettei 850 x 1050 mm**
